

Looking to expand?

Buying machinery, vehicles or computer equipment?

Hiring staff or need additional stock for your business?

Need some working capital? Refinancing existing assets?

WE CAN HELP BY ARRANGING AN EQUIPMENT LEASE, ASSET FINANCE FACILITY OR LOAN FOR YOUR BUSINESS!

ASSET FINANCE & LEASING

We source competitive asset finance & leasing solutions from a variety of mainstream or alternative finance providers.

We help businesses at various stages of their development; from new starts through to mature companies.

We work with clients across a wide range of industry types & sectors.

Our aim is to make business finance straightforward and uncomplicated for our customers.

Whether the value is £5k or £5m, whether it is a standard machine or the most up-to-date technology led equipment we are confident we can help.

BUSINESS LOANS

Loans of up to £500k can be used to finance key project development costs or provide additional working capital to help day to day cash-flow.

Loan repayments can be spread over periods from 3 months to 5 years. These stand-alone facilities work along-side existing bank overdraft or invoice discounting facilities.

No formal asset security is normally needed, however personal guarantees from shareholders are required.

Businesses also need to demonstrate they can afford the monthly repayments.

With interest rates from 4.9%, these competitively priced short & medium-term loan options can be used to support a variety of business costs, including premises relocation, staff hiring and training costs, marketing or settling HMRC VAT or PAYE payments.

If you require a quote or feel a further discussion would be appropriate, please contact Debbie Young @ Northumbria Finance by telephone or email.
